MASSAGE

the bath experience is completed by the massage

HARMONY MASSAGE

The aroma massage treatment is performed with calm and slow motions by professional massage therapists. Its primary purpose is to relax the muscles, as a result your body gets relaxed and your soul gets invigorated. It is perfect for physical and mental stress or as a first massage experience and we highly recommend it both for couples as well as individuals.

During the 20-minute aroma massage, you decide whether the masseuse will only massage the neck or back, or perhaps treat the tired lower limbs (legs).

During the 45-minute aroma massage, the therapist massages the entire body, excluding feet and head.

SAUNA RITUALS

A sauna session (aufguss) is a special service in a sauna or steam chamber, which is performed by a sauna master and lasts for 12-15 minutes.

To enjoy the optimal health benefits of the service, please attend to the session without wearing a swim suit. To prevent the sweat from reaching the sauna benches, the usage of sheets and towels are welcome.

During the programs the sauna and the showers are bathing suit free (use of a sheet/towel is required), but the other saunas are not bathing suit free.

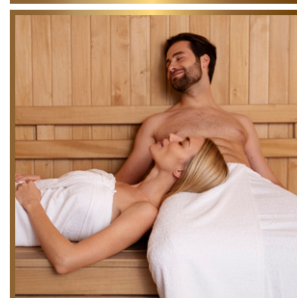

WEEKDAYS:

The times of the rituals are displayed at the Phoenix sauna.

SAUNA RITUALS ARE FREE OF CHARGE ON WEEKDAYS.
